

MISSION ROWING 2007 PRICE LIST

The materials and construction methods used in the Racing / High Performance Line sets the Mission apart from the rest. Our unique side by side hull construction gives our hulls unprecedented longitudinal stiffness. With almost zero deflection, all of your power contributes to propelling the boat making you go your fastest.

With three component packages you can choose the performance level that best meets your needs.

Rocket Carbon D

- Side by side carbon hull
- Advanced infusion technology
- Dreher tubular carbon rigger
- Dreher carbon components
- FISA minimum weight

	Hull Stiffness	Low		high
	Rigger Stiffness	Low		high

Single	\$7000
Double	\$11000
Pair	\$11000
Pair / Double	\$12000

Rocket Carbon S

- Side by side carbon hull
- Advanced infusion technology
- Dreher standard carbon rigger
- Dreher carbon components
- FISA minimum weight

	Hull Stiffness	Low		high
	Rigger Stiffness	Low		high

Single	\$6500
Double	\$10500
Pair	\$10500
Pair / Double	\$11500

Rocket Carbon A

- Side by side carbon hull
- Advanced infusion technology
- Aluminum wing rigger
- Carbon components
- FISA minimum weight

	Hull Stiffness	Low		high
	Rigger Stiffness	Low		high

Single	\$6000
Double	\$9500
Pair	\$9500
Pair / Double	\$10500

Flight Carbon A

- Side by side carbon / S-glass Hull
- Advanced infusion technology
- Aluminum wing rigger (carbon upgrade option)
- Carbon components
- FISA minimum weight

	Hull Stiffness	Low		high
	Rigger Stiffness	Low		high

Single	\$5500
